## LUX-MAY

With almost 60 years of experience, **LUX-MAY** is a leading manufacturer of **technical and decorative lighting**, with a consolidated presence in the **domestic market** and a clear **international** focus. We manufacture in Amorebieta (Bizkaia), where our headquarters and main plant are located: 12,500 m<sup>2</sup> of production space and 900 m<sup>2</sup> of offices. We export to countries in Europe, Asia, Africa and the Middle East, offering reliable solutions for demanding environments. We are committed to lighting that is ready for the future: **energy efficiency, sustainability and contemporary design**. We work with top-tier suppliers and develop luminaires that comply with the main international standards, standing out for their performance, durability and environmentally responsible approach. **Quality and service** are in our DNA: we apply rigorous controls at every stage of production and are **ISO 9001 certified**. All this is backed by a friendly team and fast, efficient and professional customer service.

Possibility of automating the automatic switch-off of the **UV-C lamp** after **motion detection**. Program the switch-on/switch-off of the UVC lamp by days and hours.

In the **ECOAIRY** model, the germicidal action takes place inside the luminaire. It can disinfect areas occupied by people, animals and/or plants. The purified air is expelled **free of ozone**.

A **36W UVC lamp** sterilises an area of **30m<sup>2</sup>** in **1-3 hours**.

The **UVC lamp** (except for the ECOAIRY model) cannot be operated in the presence of people, animals and/or plants. Please refer to the **safety recommendations** for use on our website [www.lux-may.com](http://www.lux-may.com).

- 1. SCOPE OF APPLICATION:** These general terms and conditions of sale apply to all sales and supplies made by Manufacturas Plásticas May, S.A., under its LUX-MAY trademark, unless expressly agreed otherwise in writing with the customer. Any contrary condition imposed by the buyer shall only be valid if it has been accepted in writing by our company.
- 2. PRODUCT AND CATALOGUE:** LUX-MAY reserves the right to make technical modifications to its products, always with the aim of improving performance or adapting to new regulations, without prior notice. Images, measurements and technical descriptions are for guidance only and are subject to change.
- 3. PRICES AND TRANSPORT:** Prices do not include taxes or transport costs, unless expressly agreed.  
Domestic shipments (Peninsula): carriage paid on orders over £400 (excluding VAT).  
Special or large volume orders: these will be assessed individually.  
Exports: Incoterm EXW (Ex Works) will apply, unless otherwise agreed with the customer.
- 4. DELIVERY TIMES:** Delivery times are estimates and are not contractual. Any possible delay does not entitle the customer to cancel the order or claim compensation, unless agreed in writing by both parties.
- 5. RETURNS:** Returns will not be accepted after 10 days from receipt of the material. All returns must be previously authorised by our Quality Department and sent carriage paid, except in the case of an error attributable to LUX-MAY.  
Returns incur a minimum depreciation of 10% during the first 6 months, for inspection, packaging or reconditioning, rising to a minimum of 25% during the following 6 months.  
Under no circumstances will returns be accepted for products more than 12 months after the invoice date, or for custom-made or non-catalogue items.
- 6. ORDER CANCELLATION:** Cancellations of orders that have already been manufactured or are in process will not be accepted, especially if they are customised. In these cases, they will be treated as a return and may be subject to depreciation or charges.
- 7. FORCE MAJEURE:** LUX-MAY shall not be liable for any breaches arising from force majeure (pandemics, conflicts, power failures, cyberattacks, strikes, shortages of raw materials or other serious unforeseen events).
- 8. WARRANTY:** All LUX-MAY products are covered by a legal and commercial warranty, which covers manufacturing and operational defects for a period determined by the type of luminaire (see WARRANTY TERMS AND CONDITIONS).  
The warranty does not cover damage caused by incorrect installation, tampering, electrical surges or misuse.  
To process a claim, the customer must keep the product and report the problem in writing to our Quality Department.  
Customised or special products will have individualised warranty conditions after approval.
- 9. AFTER-SALES SERVICE:** LUX-MAY offers after-sales service and technical support for all its products. The service may include repair, replacement or credit, as appropriate and always after technical verification.
- 10. JURISDICTION:** For any dispute that may arise from the interpretation or fulfilment of these conditions, both parties submit to the courts and tribunals of Vizcaya, expressly waiving any other jurisdiction that may apply.
- 11. UPDATES AND VALIDITY:** These terms and conditions may be modified without prior notice. The most up-to-date version will be available on our website: [www.lux-may.com](http://www.lux-may.com).

## WARRANTY TERMS AND CONDITIONS

The warranty for our products shall be valid for the period indicated in the product warranty document. If a product does not function in accordance with this warranty, LUX-MAY shall replace the defective product free of charge, subject to the provisions of the limited warranty conditions set out below. The LUX-MAY warranty applies only to LUX-MAY customers (hereinafter referred to as the purchaser). If the purchaser returns any of the products covered by this warranty in accordance with the conditions set forth herein, within the warranty period, and LUX-MAY determines that such product does not satisfy this warranty, LUX-MAY will, at its discretion, repair or replace the defective product or component, or refund the purchase price. For the avoidance of doubt, 'repair or replace' does not include in any case the activities, costs or expenses of removal and reinstallation of the affected products, nor does it include special damages such as loss of income/profits, damage to property or other extended costs not mentioned above. If LUX-MAY chooses to replace the product but is unable to do so because it is no longer manufactured or available, LUX-MAY may refund the purchaser the amount paid or replace the product with an equivalent product (the design or specifications of which may vary slightly). This limited warranty shall only be valid when the product has been installed, maintained and used in the application for which it was manufactured, in accordance with the applicable installation standards and the manufacturer's instructions. This warranty does not cover damage caused by misuse, abnormal use or use that violates the relevant standards, codes or instructions for use, including, without limitation, those contained in the safety, industry and/or electrical standards in force in the relevant regions. This warranty shall become null and void in the event that persons not authorised by LUX-MAY carry out any type of repair or modification to the products. Non-compliant or defective products shall become the property of LUX-MAY immediately after they have been replaced or refunded. Upon request, LUX-MAY representatives shall be granted access to the product in order to verify the non-compliance. LUX-MAY is not responsible for power supply conditions, including power surges, voltage fluctuations in current ripple control systems that exceed the specified limits of the products and those defined in the relevant supply standards.

*Lux-May*
